PHILOSOPHY

Investment philosophy is grounded in three fundamental pillars:

• Financial strength

A strong balance sheet to survive and thrive in periods of unexpected volatility.

• Ability to grow

Potential long-term compounding and seeks to avoid the risk of value-traps.

• Valuation.

Valuation always matters. 3 5-year price targets seek 30%-50% CAGR returns.

Important disclosures, continued:

- For informational purposes only. Not a recommendation or investment advice. As with all investing, there is a risk of loss and no guarantee that the strategy will be profitable.
- The Russell Microcap® Value Index measures the performance of the microcap value segment of the US equity market. It includes Russell Microcap companies with relatively lower price-to-book ratios, lower I/B/E/S forecast medium term (2 year) growth and lower sales per share historical growth (5 years). The Russell Microcap Value Index is constructed to provide a comprehensive and unbiased barometer for the microcap value segment of the market. The Index is completely reconstituted annually to ensure larger stocks do not distort performance and characteristics of the microcap opportunity set.
