PHILOSOPHY

3-pronged investment philosophy based on:

• Financial strength

A strong balance sheet to survive and thrive in periods of unexpected volatility.

• Ability to grow

Potential long-term compounding and seeks to avoid the risk of value-traps.

• Valuation.

Valuation always matters. 3 to 5-year price targets seek 30%-50% CAGR returns.

- Investing with conviction. Value-oriented and benchmark agnostic.
- We see several potential catalysts for Smid value stocks into year-end.
- Top contributor was Varex Imaging (VREX). Shares rallied as worst case tariffs will likely not happen and security business continues to grow.
- Kyndryl (KD) was our largest detractor. Investment case remains compelling
